

KLH After Effects 2022 Introduction

1 Fundamentals of Motion Graphics

- After Effects and the RGB Color Mode
- Frame Size
- Resolution
- Pixel Aspect Ratios
- Working with Native Transparency and Alpha Channels
- Understanding Frame Rates
- Time Code Options
- Interpreting Footage, Frame Rates, and Field Order

2 Getting to Know the Workflow

- Creating a Project and Importing Footage
- Creating a Composition and Arranging Layers
- Adding Effects and Modifying Layer Properties
- Animating Compositions
- Previewing Timelines
- Optimizing Performance in After Effects
- Rendering and Exporting Compositions
- Customizing and Creating Workspaces
- Setting After Effects Preferences
- Collaborating in After Effects
- Finding Resources for Using After Effects

3 Creating a Basic Animation Using Effects and Presets

- Importing Footage using Adobe Bridge
- Creating a New Composition
- Working with Imported Photoshop and Illustrator Files
- Applying Effects to Layers
- Creating and Applying Animation Presets

- Pre Composing Layers
- Previewing Effects
- Working with Transparency
- Understanding Keyframing Basics
- Creating and Working with Keyframes
- Temporal vs Spatial Keyframes
- Rendering Compositions

4 Other Animation Options

- Animating using Motion Sketch
- Using the The Smoother and The Wiggler
- Using Motion Blur
- Using the Graph Editor
- Auto Orienting Motion Paths
- Splitting and Sequencing Layers
- Using Adjustment Layers
- Manipulating Time and Time Remapping

5 Animating Text

- Creating Text Layers
- Installing Fonts using Adobe Fonts
- Creating and Formatting point Text
- Using Area Type
- Working with the Source Text Option
- Working with Text on a Path
- Using Text Animator groups
- Adding Properties to an Animator Group
- Direct Text Keyframing
- Using Range Selectors

KLH Adobe After Effects 2022 Introduction Outline

Animating Tracking and Blur

Using Per Character 3D

Adding Motion Blur

Using the Wiggly Selector

Using a Text Animation Preset

Converting Text to Shape Layers

Converting Photoshop Text to Text Layers

6 Working With Shape Layers

Creating Shape Layers

Duplicating a Shape

Creating Custom Shapes with the Pen Tool

Positioning Layers with Snapping

Animating a Shape

Using Path Operators

Creating Self-Animating Shapes

Animating using Parenting

Parenting with Nulls

Using Nulls to Connect Points

Converting Shapes to Bezier Paths

Saving Shape Layers as Presets

7 Animating a Multimedia Presentation

Adjusting and Animating Anchor Points

Parenting Layers

Pre Composing Layers

Keyframing a Motion path

Applying and Editing Effects

Using Adjustment Layers

Splitting Layers

Moving Layers on the Timeline

Changing Layer Stacking Order

Trimming Layers

Sequencing Layers

Animating Precomposed Layers

Animating a Background

Adding an Audio Track

8 Animating Layers

Duplicating Layers

Using Parent and Link Options

Using a Track Matte

Animating using the Corner Pin Effect

Pasting a Path Into Position Properties

Retiming Compositions

9 Working with Masks

Masking Basics

Creating a Mask with the Pen Tool

Masking with Shape Tools

Editing a Mask

Feathering the Edges of a Mask

Using the Mask Feather Tool

Replacing the content of the Mask

Adjusting Mask Opacity

Animating Masks

10 Distorting Objects with the Puppet Tools

- Puppet Tool Basics
- Adding Position Pins
- Using the Classic Puppet Tool
- Using Motion Sketch with the Classic Puppet Tool
- Posing with the Advanced Puppet Tools
- Adding Advanced and Bend Pins
- Stiffening an Area
- Easing Pin Keyframes

11 Performing Color Correction

- Adjusting Color with the Lumetri Color Effect
- Basic Options
- Creative Options

- Curves Options
- HSL Secondary Options
- Color Wheels Options
- Vignette Options
- Using Lumetri Scopes

12 Rendering and Outputting

- Render Queue Basics
- Render Settings
- Output Module
- Creating Templates for the Render Queue
- Exporting using the Render Queue
- Rendering with Adobe Media Encoder

KLH After Effects 2022 Intermediate

1 Parenting

- Parenting Basics
- Simple Pick Whipping
- Using Parenting for Positioning
- Assigning and Removing Multiple Parents
- Parenting: Under the Hood
- Parenting to a Null
- Jump Parenting

2 Using Compound Effects

- Understanding Compound Effects
- Using Nesting and Precomposing
- Compound Blur
- Gradient Wipe
- Texturize
- Displacement Map
- Time Displacement
- Radial Blur
- Card Dance

3 Blending Modes and Track Mattes

- Using Blending Modes
- Applying and changing Blending Modes
- Overview and uses of Each Blending Mode
- Darkening and Lightening Modes
- Combination Darkening and Lightening
- Using Subtraction and Divide Modes
- Color Modes

Track Matte Basics

Luma versus Alpha Mattes

Using Precomposing and Nesting with Track Mattes

Animated Mattes

Using Shape Layers to create Track Mattes

Stencil and Silhouette Mattes

Using Preserve Transparency

Using Pre Compose to Fix Transparency Backgrounds

4 Motion Tracking

Motion Tracking Basics

Single Point and Multipoint Tracking

Using Tracking Regions and Attach Points

Adjusting and Correcting Dropped Track Regions

Using the Mask Tracker with Content Aware Fill

Perspective Tracking with Mocha

Using the Warp Stabilizer

5 Expressions

Introduction to Expressions

Converting Legacy Expressions

Creating, disabling, and Removing Expressions

Simple Pick Whipping

Using Basic Math with Expressions

Using the Expression Language Menu

Interpolating with This to That

Editing Expressions

Using the Wiggle and LoopOut Expressions

Using Copy with Relative Property Links

KLH Adobe After Effects 2022 Intermediate Outline

Converting Expressions to Keyframes

Saving Expressions as Presets

6 Greenscreen Keying

Understanding Keying

Analyzing Greenscreen Footage

Using Garbage Mattes

Using Keylight 1.2 for Greenscreened Footage

Viewing and Refining the Matte

Key Cleaner and Advanced Spill Suppressor Options

Using the Lumetri Color Effect with Keylight 1.2

7 Using the Roto Brush 2

Setting up Rotoscoping Using Roto Brush 2

Creating a Segmentation Boundary

Using Adjustment Strokes

Freezing and Editing Roto Brush Tool Results

8 Performing Color Correction

Adjusting Color with Standard Effects

Color Correction with the Lumetri Color Effect

Lumetri Color Secondary Color Correction

Using Lumetri Scopes

Color Correction Using Blending Modes

9 Creating Motion Graphics Templates

Preparing a Template Composition

Setting up a Motion Graphics Template

Adding Properties to the Essential Graphics panel

Using the Essential Graphics panel as a Control panel

Providing Image and Video Options

Protecting the Timing of Template Sections

Exporting the Template as a Mogrt file

10 Using Dynamic Link

Dynamic Linking of Adobe Premiere Sequences

Using Adobe Audition with After Effects

Adobe Illustrator file Creation for After Effects

Adobe Photoshop Workflow Compatibility

Adobe Character Animator Dynamic Linking

Adobe Animate Dynamic Linking

Cinema 4D Dynamic Linking

KLH After Effects 2022 Advanced

1 3D Space

- 3D and Z Space Basics
- Choosing the 3D Render Engine
- Creating 3D Layers
- Mixing 2D and 3D Layers
- Using the 3D Gizmo
- Rotation and Orientation in 3D
- Offsetting the Anchor Point in 3D
- Using Multiple Views
- Camera and Orthogonal Views
- Using Local, World, and View Axis Modes
- Previewing in 3D
- Using Auto Orient
- Using Parenting with 3D Layers
- Using the CINEMA 4D Render Engine
- Layer Geometry Options
- Extruding Text and Shapes in After Effects

2 Lighting in 3D

- Lighting Basics
- Creating Lights
- Working with Spot, Parallel, Point, and Ambient Lights
- Layer Material Properties
- Light Options
- Creating and Managing Shadows

- Using Light Falloff
- Layer Material Light Options
- Using Light Transmission
- Creating Gels and Gobos
- Using Parenting with Lights
- Using Adjustment Lights

3 Cameras

- Camera Basics
- Camera Creation
- Creating One-node cameras
- Creating Two-node cameras
- Editing between Multiple Cameras
- Using the Universal, Position, and Rotation Camera Tools
- Using Multiple Composition Window Views in 3D
- Using the Orbit, Pan, and Dolly Tools to Control Views
- Orbit, Pan, and Dolly Tool Options
- Using the Create Camera from 3D View Command
- Animating Cameras
- Using the Camera Tools to Animate the Camera
- Auto-Orienting Camera Paths
- Auto-Orienting Layers to the Look at the Camera
- Using the Look at Selected Layers Command
- Using and Animating Zoom and Depth of Field
- Using Parenting with Cameras

4 Working with AE Cinema 4D Lite

- Introduction to Cinema 4D Lite
- Cinema 4D Lite User Interface
- Cinema 4D Project Setup
- Creating Shapes and Text Objects
- Extruding Objects
- Adding Lighting and Textures
- Previewing Options
- Animating and Keyframing Basics
- Creating Cameras and Lights
- Using the CiNeware Plugin in After Effects
- Importing Cinema 4D models

5 3D Camera Tracker

- Using the 3D Camera Tracker
- Tracking the Footage
- Working with Tracking Points
- Creating a Ground Plane and Camera
- Creating Text with Tracking Points
- Precomposing an Image to a Plane with a Solid
- Parenting an Image to a Null
- Creating Shadows
- Adding an Ambient Light
- Adding Effects

6 Content Aware Fill

- Setting up Content Aware Fill
- Creating and Tracking a Mask

- Setting Options in the Content Aware Panel
- Object Removal
- Surface Removal
- Edge Blend Options
- Creating the Fill Layer
- Using Adobe Photoshop with Content Aware Fill

7 Particles and Simulation Effects

- Introduction to Particles and Simulation Effects
- Working with Particle Playground
- Options for the Cannon, Grid, and Layer Exploder
- Using Layer Maps
- Gravity, Wall, and Repel Options
- Working with Property Mappers
- Using Cycore Particle World and Particle Systems 2
- Integrating Particles with Video
- Using Particle and Simulation Effects for Track Mattes

8 Useful Simulation Effects

- Shatter
- Pixel Polly
- Rain
- Snowfall
- Drizzle
- Mr. Mercury
- Waveworld
- Caustics
